

BEAVER

SID SAYS... ' QUESTIONS

*Start the game with all beavers in the centre of the room. Ask the first question, get them to go to the 'Sid' of their choice. When you have discussed the answer a little, get them back in the centre of the room before you ask the next question and repeat.*

1. Should you give someone your personal information?
2. If you get an 'Uh-Oh' tummy about anything, should you tell a parent or trusted adult?
3. If someone is rude to you on the internet, should you be rude back?
4. If you are talking to someone online that you don't know in the 'real world', can you trust them?
5. If you don't like what someone is saying or doing on the internet, can you report it by pressing the 'report abuse button'? (show the image to remind them)
6. If you are sensible and follow the rules, is the internet fun?
