Flood Warnings.

These can be received by phone, email and text. They can be found via the Natural Resources Wales website and Facebook.

Flood Alert - Flooding is possible. Be prepared.

Low lying land and roads will be affected first. Be prepared to protect yourself, family, pets and property. Farmers should consider moving livestock and equipment away from areas likely to flood. Keep a Flood Kit ready. Ring Floodline for up to date Flooding information. Keep an eye on the weather and river levels.

Flooding is expected - Immediate Action Required.

Take action now to prevent water getting into your home, move family pets and valuables to a safe place. If caught in a flash flood get to high ground. Put flood protection in place. Stay away from flood water and don't take risks. Ring Floodline for up to date Flooding information.

Severe Flooding - Danger to Life.

You may be evacuated from your property. Co-operate with the emergency services and call 999 if you are in immediate danger. Stay in a safe place with a means of escape. Ring Floodline for up to date Flooding information.

3) Factors that can cause flooding:

- Very high tide/tidal surge

- Heavy rain
- A blocked river/drain
- Reservoir failure of dams
- Climate Change

Factors that can make flooding worse:

- Heavy rain
- Severe weather
- Drainage systems failing/blocked pipes
- Fast flowing water
- Litter
- Trees/blockages in rivers and streams

4) Things that can be put in a flood kit (not an exhaustive list):

- Bottled water
- Change of clothes
- Non perishable Food (including for babies and pets)
- Blanket
- Medication
- Radio
- Torch and Spare Batteries
- Any paperwork/insurance documents
- Mobile Phone and charger

Remember that your gas and electricity may go off if you experience flooding, so anything electrical will not work.

Keep your Flood Kit in a high place, preferably upstairs. If you live in a flat or bungalow, keep it as high up as you can and easy to reach.
